PROFILE

Software developer focused on React, TypeScript, Next.js and scalable frontend architecture. I independently develop web applications – from architecture and development standards to tooling and the CI/CD pipeline. I am particularly passionate about intuitive user interfaces, thoughtfully designed UI components, design systems and animations. I value clean code, performance and a high-quality user experience.

WORK EXPERIENCE

Frontend Developer (Working Student)

01/2022 – 12/2022

Northern Lights GmbH, Flensburg

Figma · Angular · TypeScript · HTML · CSS · Microservices · Scrum · Code review

- **UX/UI design and prototyping:** Aligned requirements with product owners and users, created wireframes and user flows, and built interactive high-fidelity prototypes in Figma.
- **Frontend development:** Developed frontend components, views and form logic with Angular and TypeScript, and built responsive user interfaces.
- **System integration:** Integrated microservices and APIs and contributed to code quality through code reviews and pair programming in a Scrum team.

EDUCATION

B.Sc. in Media Informatics

09/2018 – 09/2025

Flensburg University of Applied Sciences, final grade: 1.8

Kotlin Multiplatform · UI/UX design · Web development · Databases · Usability testing · Software development

- **Programming:** Developed software with Kotlin Multiplatform, JavaScript/TypeScript, React and Node.js. Worked with SQL and REST APIs and used Git for version control. Familiar with clean code structure and software architecture fundamentals.
- **Methods and techniques:** Structured working practices, academic research, requirements analysis and systematic problem-solving

School-leaving qualification for higher education

07/2007 – 07/2016

Richard-Hallmann-Schule, Trappenkamp

TECH STACK

Programming languages
TypeScript, JavaScript, SQL, Kotlin

Frontend
React, Next.js, HTML, CSS, Tailwind CSS

Backend & APIs
Node.js, REST-APIs, MySQL

Tools & workflow
Figma, Git, Docker, Jira, Confluence

Web & CMS
WordPress, Framer AI

LANGUAGES

German
Native language

English
B1

Russian
B1

PROJECTS ↗

ShadCV – Open-source resume component ↗

Next.js · React · TypeScript · Tailwind CSS · shadcn/ui

Built an open-source component for multilingual resumes with a responsive desktop and mobile layout and A4 PDF export. Implemented with Next.js, React, TypeScript and shadcn/ui.

Rangeview – Solana Liquidity Analytics ↗

Next.js · React · TypeScript · Tailwind CSS

Built a web application for analyzing and monitoring liquidity pools on the Solana blockchain. Developed an interactive dashboard with historical transactions, yield calculations and price alerts. Integrated blockchain APIs using Next.js, React and TypeScript.

AI chatbot with RAG ↗

Next.js · React · TypeScript · Vercel AI SDK · RAG · shadcn/ui

Built a modular AI chatbot with selectable models and retrieval-augmented generation over documents. Implemented with Next.js, React and TypeScript, integrating the Vercel AI SDK and OpenRouter.

Vehicle cost analysis web app ↗

Next.js · React · TypeScript · Tailwind CSS · shadcn/ui

Built an interactive web app for calculating and comparing total vehicle costs, including insurance, maintenance, fuel and depreciation. Implemented with Next.js, React and TypeScript.

Client projects – Web development ↗

Next.js · React · WordPress · Framer · UI/UX

Designed and built custom client websites using Next.js/React, Framer or WordPress. Selected the technology based on each project’s requirements, scope and implementation needs.

Portfolio website ↗

Next.js · React · TypeScript · Tailwind CSS · UI/UX

Built a personal portfolio with Next.js, React and TypeScript to showcase my work and projects.
